DETAILED ACTION

This office action is in response to the preliminary amendment filed July 20, 2006. In accordance with the preliminary amendment, claims 1, 3, 8, 12, and 23 have been amended, while new claim 29 has been added.

Claims 1-29 are pending.

Also, it is noted that if Group I, claims 1-22 and 29 were to be elected, claims 6-8 and 29 include a minor informality of "[Formula]" in the claim language. Correction is required.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-22 and 29, drawn to a photonic crystal having first and second members, classified in Class 385, Subclass 129.

Group II, claims 23-28, drawn to a method for manufacturing a photonic crystal slab comprising particular method steps, classified in Class 438, Subclass 31.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group II includes different special technical features, such as the *express and particular method* step limitations in making the photonic crystal. The three explicit steps presented by method claim 23 patentably distinguish Group II from Group I, in that the special technical feature of Group I being the particular optical device with apparatus features.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
